<sup>2</sup> The total survey fee is based on the number of surveyors and days needed to complete the survey, which will vary depending on the complexity of the survey (e.g., number of programs/services and locations). For a survey fee estimate, please contact CARF.

<sup>3</sup> Survey dates are established and communicated at least 30 calendar days prior to the survey. A cancellation/rescheduling fee will be assessed if an organization requests any change in the scheduled dates of its survey, whether cancellation, postponement, or other date change.
