Managed Care Options

Managed Care Assurance

The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

DMAS is currently operating a managed care delivery system for most of the Virginia Medicaid population. As such, it already has well-established member, stakeholder, and provider outreach efforts under way. DMAS and its stakeholder partners ensure that the program handles the Medicaid Adult Expansion Group efficiently and effectively. DMAS' contracted Medicaid Managed Care Organizations have years of experience providing services to similar Medicaid populations in Virginia.

MCO: Managed Care Organization

The managed care delivery system is the same as an already approved managed care program.

The managed care program is operating under (select one):

Section 1915(a) voluntary managed care program.

Section 1915(b) managed care waiver.

Section 1932(a) mandatory managed care state plan amendment.

Section 1115 demonstration.

Section 1937 Alternative (Benchmark) Benefit Plan state plan amendment.

Alternative Benefit Plan

Identify the date the managed care program was approved by CMS:

Describe program below:

There are two 1915(b) waivers utilized by the populations in the ABP. Most of the Medicaid Expansion population is enrolled in Medallion 4.0 which serves infants, children and adolescents, foster care individuals, pregnant women and parents, or the Commonwealth Coordinated Care (CCC) Plus program serving older adults and disabled individuals.

The Virginia Medicaid Managed Care program (Medallion) operating with contracted MCOs was initially approved by CMS January 1, 1996. The latest CMS re-approval of this program was July 1, 2013. Since its inception, this program has continued to expand the number of populations covered as well as the geographical area served. In July 2013, the managed care program expanded to cover the entire state of Virginia. The latest waiver amendment was approved by CMS on July 1, 2021.

The CCC Plus waiver was approved April 27, 2017 with an effective date of July 1, 2017 and was approved for five years. An amendment was submitted on May 30, 2018.

Medically frail individuals are enrolled in CCC Plus; individuals who are not medically frail are enrolled in Medallion 4.0. The following populations are excluded from managed care and will remain in fee-for-service: the incarcerated, presumptive hospital eligibility adults less than or equal to 133 percent of FPL, those in government-owned nursing facilities, residents of Tangier island, those related to the birth injury fund, and the portion of Plan First members who do not meet the criteria.

The Alternative Benefit Plan will be provided through primary care case management (PCCM) consistent with applicable managed care requirements (42 CFR Part 438, section 1903(m) of the Social Security Act, and section 1932 of the Social Security Act).

General #type# Participation Requirements

Indicate if participation in the managed care is mandatory or voluntary:

Mandatory participation.

Voluntary participation. Indicate the method for effectuating enrollment:

Describe method of enrollment in MCOs:

Once individuals are enrolled in Medicaid, they will receive a letter indicating that they may select one of the contracted MCOs. These letters shall indicate an assigned MCO in which the member will be enrolled if he does not make a selection within a period specified by DMAS of not less than 30 days. (Individuals are assigned through a system algorithm based upon the member's history with a contracted MCO.) DMAS has sole responsibility for determining enrollment in the contractor's plan. DMAS utilizes an independent enrollment broker under contract to DMAS to assist members with making plan choices after initial preassignment and during open enrollment.

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

The Medicaid fee-for-service (FFS) system provides services to Medicaid-eligible individuals state-wide. The program covers newly-Medicaid-enrolled individuals until they can enroll in a Medicaid-contracted MCO in the managed care program. It also covers the following services and individuals that are carved out of or excluded from the managed care program: IEP school health services, dental services, and home and community-based waiver services. The FFS program provides dental health services for Medicaid individuals through an administrative service organization (ASO). Transportation services are provided through a capitated arrangement with a private contractor.
